1.0 **General Requirements:**
1.1 Provide and Install Boiler(s) in accordance with the plan drawings, written specifications and contract documents.
1.2 All work shall be performed in a neat workmanship like manner compliant with all local code authorities.

2.0 **Submittal**
2.1 Product Data: Submit manufacturer’s technical product data, including rated capacities of selected model, weight, installation and start-up instructions, and furnished accessory information.
2.2 Shop Drawings: Submit manufacturer’s assembly drawings indicating dimensions, connection locations, and clearance requirements.
2.3 Wiring Diagrams: Submit manufacturer’s electrical requirements for the boiler including ladder type wiring diagrams for interlock and control wiring.

3.0 **Boiler Requirements**
3.1 Boiler shall provide hot water for heating zones, and have capability to sense temperature from Indirect Domestic Hot Water Tank.
3.2 Boiler shall be certified for Direct Vent operation.
3.3 Boiler shall be a wall hung model.
3.4 Refer to all local codes and jurisdictional requirements for installation of field supplied anti-scald valve(s).

4.0 **Acceptable Manufacturers**
4.1 Equivalent units and manufacturers must meet all performance criteria for all fuel options, and will be considered upon prior approval.

5.0 **Certifications & Listings**
5.1 Boiler shall be certified by CSA, AHRI, NRCAN.
5.2 Registered with Massachusetts Board, National Board BPVI.
5.3 Boiler shall be constructed in accordance with the American Society of Mechanical Engineers (ASME)
5.4 Boiler shall have an ASME H stamp that is applied to the heat exchanger. Each heat exchanger shall be independently reviewed by an ASME authorized inspector.
5.4 The Boiler shall be equipped with a 50 psig relief valve.

6.0 **System Requirements**
6.1 Central heat hydronic system pressure shall be no more than 50 psig and no less than 7.25 psig.

7.0 **Construction**
7.1 Boiler heat exchanger shall be constructed of Iron-Chromium stainless steel parallel tube, encased in a Noryl Resin housing.
7.2 Gas Valve shall be a modulating valve capable of firing from:
   • 379,127 BTU input down to 39,050 BTU input in Heat mode (9.7:1 turn down)
7.3 Induced draft blower shall be variable speed and controlled by a PCB.
7.4 Burners shall be constructed of Iron-Chromium stainless steel.
7.5 Ignition system shall be direct spark with separate flame sensing rod.
7.6 Boiler shall include an internal factory installed and wired Boiler Loop Pump.
7.7 Boiler shall include built in Low Water Cutoff via Pressure switch.
7.8 Boiler shall include factory supplied union connections with shutoff valves.
7.9 Boiler shall include legionella prevention function.

8.0 Control System
8.1 Control system shall be PCB integral controller with an LCD digital display and user interface.
8.2 Control will sense supply water temperature and adjust firing rate of the boiler to deliver amount of heat needed.
8.3 Control will sense and display supply water temperature.
8.4 Control can accept an optional proprietary Outdoor Air sensor and have field adjustable reset curves.
8.5 Control displays error codes and diagnostic information.

9.0 Combustion Air And Flue Vent Exhaust
9.1 The boiler shall be Direct Vent only, with materials compatible with those standards, and installed as per the manufacturer’s written instruction, plan drawings and all applicable code authorities.
9.2 The flue gas exhaust shall connect directly to the boiler at the location labeled.

10.0 Electrical Connections
10.1 Supply voltage 120 volts 60 Hz 12 amp minimum size circuit. Boiler shall have factory wired and installed cord with male plug end 3 feet long.
10.2 Boiler shall have Low voltage terminal strip with clearly marked connections.

11.0 Quality Assurance
11.1 Factory testing - boiler shall be factory test fired.

12.0 Boiler Manuals
12.1 The boiler shall be provided with a complete set of instructions as follows:
   12.1.1 Installation, Operation and Maintenance Manual (IOM) with Application Guide
   12.1.2 Repair Parts Manual
   12.1.3 User’s Manual
